BI REPORT DEVELOPER

MCCOOK, IL – CORPORATE HEADQUARTERS

GPA is the market leader in substrate solutions for offset, digital and wide format printing, with a comprehensive offering of pressure sensitive papers, films, laser labels, eco-friendly substrates, digital and specialty papers, and more.

Our foundation is built on consistently delivering a wide variety of superior products at a great value. It is our continued focus on developing innovative solutions to our customers and their business, combined with the commitment to provide the best products in the marketplace that has positioned us as the industry leader.

GPA is currently seeking a full-time BI Report Developer for our Corporate Office. As an integral member of our delivery team, the Business Intelligence (BI) Report Developer is responsible for the design, development, implementation and support of mission-critical enterprise Business Intelligence (BI) reports. Working with cross-functional teams, you will participate to gather and document reporting requirements to meet business needs. Using your skills and experience as a BI Report Developer, you will then use those requirements to design, develop, test and implement reports and dashboards that utilize the underlying data store(s)/ data warehouse(s) / data mart(s).

Position responsibilities include:

- Design and create reports using Crystal Reports
- Translate business requirements into specifications that will be used to implement the required reports and dashboards, created from potentially multiple data sources
- Transition developed reports and dashboards to the Operations & Support team
- Provide support as required to ensure the availability and performance of developed reports and dashboards for both external and internal users
- Ensure proper configuration management and change controls are implemented for your sphere of influence
- Provide technical assistance and cross training to other team members.
- Provide training and assistance to users for generation of on-demand reports
- Design and implement technology best practices, guidelines and repeatable processes
- Various projects or tasks assigned by Management
- Research, review, and analyze the effectiveness and efficiency of existing reports and develop strategies for enhancing reporting capabilities.
- Meet with decision makers and end users to define reporting requirements and goals.
- Database security and integrity checks
- Ticket completion on SQL, data or code related requests
- Daily maintenance of in-house SQL jobs
- Project management and job build-out
- Data copy from PROD server to TEST server done intermittently
- Microsoft SQL Server experience
- Macola (or other comparable ERP system) experience
- SharePoint experience

Position requirements include:

- 5 years' experience developing and implementing enterprise-scale reports and dashboards, including
- BA/BS in Computer Science or related field is preferable. Equivalent combination of experience, education and training will be considered
- Proficiency with Crystal Reports
- Strong SQL query knowledge
- Working with users in a requirements analysis role
- Extensive experience with data warehouse implementations
- Knowledge of logical and physical data modeling concepts (relational and dimensional)
- Performance tuning experience related to reporting queries required
- Understanding of data integration issues (validation and cleaning), familiarity with complex data and structures
- Excellent verbal and written communication skills and organization/prioritization skills
- Excellent interpersonal (verbal and written) communication skills are required to support working in project environments that includes internal, external and customer teams
- Requires strong analytical, conceptual and problem-solving abilities
- Programming / scripting experience and knowledge of software development life cycle is preferred
- SQL Code technical writing abilities and the ability to think independently and analyze problems with a solution based mindset
- Ability to manage multiple priorities, and assess and adjust quickly to changing priorities

Resumes can be submitted by email to careers@gpa-innovates.com or by fax to (773) 847-2782. Relocation is not provided for this position. No phone calls please.

All post-offer candidates will be subject to the successful completion of a pre-employment background check and drug screen before they can begin employment.

GPA offers a competitive compensation package, medical, dental, 401(k), paid time off, and much more.

GPA is an Equal Opportunity Employer and participates in E-Verify.
